3 reasons why you and your child will love being part of the Clara Barton Community

1

WE ARE A BILINGUAL SCHOOL

Daily academic areas taught in Spanish and English.

We prepare students for global success so they have the tools to achieve their dreams.

OUR STUDENTS RECEIVE A PERSONALIZED EDUCATION

Our dedicated teachers motivate and inspire learners.

Small classes offer students individualized attention, with a maximum of 16 students per classroom in Preschool, and nineteen students for second grade through High School.

2

3

DEVELOPING WELL ROUNDED STUDENTS THROUGH THE IMMERSION OF ART AND NATURE

We offer a real approach to nature, providing students the opportunity to explore and learn in our green areas, vegetable patch, and orchard.

Clara Barton School is a non-profit organization, the funds are reinvested in improvements on education for our students.

Every school year we renew our commitment for continuous improvement so that our students are able to acquire tools to responsibly get along in a world that demands academic knowledge, social values and emotional intelligence.

OUR MAIN OBJECTIVE

IS TO GUARANTEE THAT OUR ACADEMIC PROGRAM RESPONDS TO THE DIFFERENT LEARNING STYLES THAT EACH CHILD AND TEENAGER HAS.

In Clara Barton

WE USE ACTIVE METHODOLOGIES THAT ARE BASED ON THE MULTIPLE INTELLIGENCES

We create learning environments suitable to potentialize our children's strengths according to their strongest types of intelligence. We support the areas where each student needs to improve, achieving complete, meaningful and real learning in all the areas.

WE STRENGTHEN CREATIVITY as part of our culture.

We boost the innate creativity in our children and teenagers. We are convinced that developing the creativity and imagination will allow our students to increase their ability to adapt to a continually changing environment.

WE ARE A MULTICULTURAL SCHOOL

We believe that cultural diversity helps us to be more aware of the importance of respecting differences. We respect the individuality of each human being.

Clara Barton's students

They are energetic, vibrant, and creative. They express their emotions freely, and learn to think critically. They also know how to have fun and really enjoy their time at school!
